

# Shubham Jani

Markham, Ontario, Canada    ✉ janishubham8@gmail.com

## Professional Summary

---

IT-savvy support professional with 2+ years of experience delivering hands-on technical and customer support across phone, email, chat, and in-person channels. Comfortable navigating PCs, Windows environments, and mobile devices (Android/iOS) to perform first-level troubleshooting, while documenting issues clearly and accurately. Experienced managing the full support ticket lifecycle – intake, triage, resolution, and follow-up – and communicating technical updates to non-technical users. Background in cybersecurity and cloud fundamentals (ISC2 CC, AWS CCP), with CompTIA A+ in progress. Reliable, detail-oriented, and quick to learn new tools, processes, and IT policies in fast-paced, customer-facing environments.

## Core Competencies

---

**Technical Support:** First-level triage, PC/Windows troubleshooting, Android/iOS familiarity, device setup & provisioning, ticketing systems (ConnectWise), asset/stockroom support

**Documentation & Process:** Technical documentation, knowledge-base articles, workflow/process improvement, SharePoint documentation

**Customer & Stakeholder Support:** Customer-centric service, active listening, de-escalation, needs assessment, clear verbal/written communication

**Problem Solving:** Critical thinking, root cause analysis, independent troubleshooting, escalation management

**Security & IT Fundamentals:** IT security & data privacy awareness, user account management, Microsoft Intune, WatchGuard

**Tools:** Microsoft Excel, Word, Outlook, Intune, WatchGuard, ConnectWise, PowerShell (basic)

## Professional Experience

---

|                            |                    |
|----------------------------|--------------------|
| <b>Technical Support I</b> | Sep 2025 – Present |
| <i>Chalo Opticals</i>      | <i>Toronto, ON</i> |

- Provided first-level support and issue triage across phone, email, and chat, taking ownership of each request from first contact through resolution.
- Applied active listening to accurately identify the root cause of issues, then documented and resolved them with clear, solution-oriented responses.
- Investigated and resolved the majority of issues independently through critical thinking, escalating only when specialized authorization was required – mirroring a tiered IT support workflow.
- Maintained accurate, detailed documentation of every interaction to support quality assurance and team knowledge sharing.
- Managed a high volume of concurrent requests, prioritizing based on urgency while consistently meeting service-level standards.
- Collaborated cross-functionally to resolve complex cases, ensuring smooth handoffs and consistent communication.

|                                             |                       |
|---------------------------------------------|-----------------------|
| <b>System Analyst (Internal IT Support)</b> | Sep 2022 – Nov 2023   |
| <i>Wappzo Infotech Private Limited</i>      | <i>Gujarat, India</i> |

- Delivered first-level technical support to internal staff for system, software, and access-related issues, performing hands-on troubleshooting on PCs.
- Owned the full support ticket lifecycle – intake, investigation, resolution, and follow-up – keeping requesters informed at every stage.

- Identified workflows lacking supporting documentation and authored clear troubleshooting guides and resolution steps in SharePoint, reducing resolution time for recurring issues.
- Communicated technical updates and system changes to non-technical stakeholders in a simple, approachable manner.
- Handled user account provisioning, modification, and deactivation, and supported device/asset management tasks.
- Collaborated with cross-functional teams to understand business needs and deliver timely, practical solutions.

## Certifications

---

- ISC2 Certified in Cybersecurity (CC) – ISC2
- AWS Certified Cloud Practitioner (CCP) – Amazon Web Services
- CompTIA A+ – In Progress
